

I feel so honored to have Klove here in my home town of Paradise and I can't imagine living without those positive words of encouragement that I get to hear every day. Klove provides quality of life and positive input that my friends and faithful Klove listeners all over Butte county really need and don't want to live without. With so much negativity in our world and community I really need a place I can go to get refreshed and restored-Klove is it! Thanks, Daphne
